

DeWeerd & Van Dyke

Brief:

Needing to update their facilities and have a tenant space to allow for future growth, a new building was needed, but the owners still wanted the flavor of their previous building.

Strategy:

By blending historical design features with a pre-engineered structure, an economical and attractive facility was designed. The interior has a spacious showroom featuring a stamped metal ceiling. A mezzanine above the showroom and offices allows for future office space.

Project Information:

Building Size:	12,000 SF
Site Size:	1.5 AC
Completion Date:	April 2004
Project Cost:	N/A
