

Woodstream Church & Christian Academy, Mitchellville, MD

WLP is currently developing a Community Life Center, which will house the upper grade levels for the academy (with an enrollment of more than 300 students), as well as provide spaces for church activities and a ministry to “at-risk” kids. The facility will eventually encompass approximately 50,000 SF or more, as needed, including a full-size multi-purpose gymnasium, classrooms, fitness facilities, visual and fine arts rooms, locker rooms, upper level walking/jogging track, coffee/ snack bar, administrative, and support spaces. The Center will connect with the existing 80K SF worship and educational facility already on the site.
